PROFILE SUMMARY

Java Full Stack Developer with hands-on experience building web applications using Spring Boot, Angular, REST APIs, SQL, and modern frontend technologies. Recent B.Tech Computer Science graduate (2026) seeking opportunities to contribute and grow as a software developer. Available for immediate joining.

PROFESSIONAL EXPERIENCE

Software Engineer Intern – Codint Digitech, Pune *Feb 2026 – Present*

Frontend (Angular) → Backend (Spring Boot) – 6 months ongoing

- Developed responsive Angular 21 applications using RxJS, Reactive Forms, lazy loading, and REST API integration.
- Built Spring Boot REST APIs with Spring MVC, Spring Data JPA, and PostgreSQL/MS SQL Server following layered architecture principles.
- Tested APIs using Postman and Thunder Client, managed source code with Git/GitHub, and contributed to a live production website.

Software Engineer Trainee – KPIT Technologies, Pune *May 2022 – May 2023*

1 year | Agile/SDLC environment

- Participated in full SDLC cycles from requirements gathering to delivery; tracked tasks using JIRA.
- Collaborated with developers and QA teams to identify and resolve real-time bottlenecks, improving team delivery efficiency.
- Maintained technical documentation and sprint reports, ensuring alignment between development and stakeholder teams.

PROJECTS

Internship Projects @ Codint Digitech

1. Codint Digitech Corporate Website (Live Production Project) *Feb 2026 – Present*

- Developed a responsive Angular SPA for the company's official website with lazy-loaded modules and dynamic data binding.
- Improved application performance, cross-device compatibility, and scalability across desktop and mobile environments.

 **Tech:** Angular, TypeScript, Lazy Loading, Responsive Design, Git

2. Student Management System *Mar 2026 – Apr 2026*

- Developed a CRUD-based Student Management System using Angular 21, TypeScript, RxJS, and a service-based architecture for efficient state management.
- Built responsive forms with Angular Material and Reactive Forms, integrating REST APIs and validating functionality using Thunder Client.

 **Tech:** Angular 21, TypeScript, RxJS, Angular Material, REST API, Reactive Forms, Thunder Client

3. Healthcare Management System *Apr 2026 – May 2026*

- Developed an admin-focused Healthcare Management System with secure login authentication and dashboard functionality.
- Integrated public REST APIs to display real-time healthcare data and used Angular Reactive Forms for validated data entry.

 **Tech:** Angular 21, REST API, Reactive Forms, Admin Dashboard, TypeScript

4. Student Data Management System *May 2026 – Jun 2026*

- Developed REST APIs using Spring Boot, Spring MVC, and Spring Data JPA following a layered architecture (Controller → Service → Repository) with PostgreSQL integration.
- Created and tested CRUD endpoints using Postman, applying Dependency Injection and core Spring annotations to deliver structured JSON responses.

 **Tech:** Spring Boot, Spring MVC, Spring Data JPA, PostgreSQL, Lombok, REST API, Postman, DBeaver

5. BookStore Application (Full-Stack) *Jun 2026 - Present*

- Developed a full-stack BookStore application using Spring Boot, Thymeleaf, and MS SQL Server with Spring Data JPA integration.
- Implemented Create and Read operations, demonstrating end-to-end data flow from user input to database storage and retrieval.

 **Tech:** Spring Boot, Thymeleaf, HTML, Bootstrap, MS SQL Server, Spring Data JPA, REST API

Academic / College Projects

6. University Management System *Aug 2024 – Dec 2024*

- Developed a University Management System in Core Java using OOP principles to manage student, faculty, and course records.
- Integrated MySQL using JDBC for data storage, retrieval, and execution of SQL-based operations.

 **Tech:** Java, JDBC, MySQL, OOP, SQL

TECHNICAL SKILLS

Backend	Java, Spring Boot, Spring MVC, Spring Data JPA, REST API, JDBC, OOP, Dependency Injection
Frontend	Angular 21, TypeScript, RxJS, Reactive Forms, Angular Material, HTML5, CSS3, Bootstrap, Thymeleaf
Database	PostgreSQL, MS SQL Server, MySQL
Tools & IDE	IntelliJ IDEA, VS Code, Postman, DBeaver, Thunder Client, Git, GitHub, npm
Concepts	OOP, SDLC, Agile/Scrum, MVC Pattern, REST API Design, IoC, Dependency Injection, Lazy Loading

EDUCATION

Bachelor of Technology – Computer Science *Sep 2023 – Jun 2026 (Pursuing)*

SSIET, Ghogaon, Karad • CGPA: 7.26

Diploma – Computer Science *Aug 2019 – Jul 2022*

GRWP, Tasgaon, Sangli • 75.19%

AWARDS & ACHIEVEMENTS

-  Winner – Project Idea Presentation Competition (B.Tech/B.E.)
-  Runner-up – Code Cracker Competition (B.Tech/B.E.)
